PROFESSIONAL EXPERIENCE

AWS Cloud Practitioner

05/2025 — 06/2025

- Gained fundamental understanding of cloud computing concepts and AWS infrastructure.
- Learned core AWS services such as EC2, S3, IAM, RDS, and VPC
- Understood the Shared Responsibility Model and basic cloud security best practices
- Familiar with AWS pricing models, billing, and cost management concepts
- Acquired basic knowledge of cloud deployment models (Public, Private, Hybrid)

Linux Workshop

03/2025 --- 04/2025

- I Completed a 30-day Linux workshop with hands-on practice in system operations
- Learned basic Linux commands for file management, navigation, and process handling
- Gained introductory knowledge of shell scripting for task automation
- Worked with command-line interface for efficient system usage

C Programmer – Skill Rack

- Acquired hands-on experience in C programming through problem-solving and mini projects
- Implemented concepts like file handling and data structures

EDUCATION

BE - EEE minors in Computer Science

Kamaraj College of Engineering & Technology

10/2022 -04/2026

79.93%

PORTFOLIO : Click to See

SKILLS

- C
- MCU
- LINUX
- JAVA
- ESP32
- PUTTY
- SQL
- JETSON NANO
- WINSCP

PROJECTS

AI-BASED SOLAR PANEL FAULT DETECTION

- I Designed and developed an AI-based solar panel monitoring system using Jetson Nano and camera modules to automatically detect surface faults such as bird droppings, dust, and soil through image analysis.
- The system calculates fault severity percentage and sends real-time alert notifications to the owner for immediate maintenance.

WIRELESS TECHNOLOGY FOR SMART PLANTING

- Engineered a smart planting system using ESP32 to automate irrigation and plant movement with servo and gear motors.
- Enabled basic monitoring and eco-friendly operation using a 3.7V lithium-ion battery.

POSITIONS OF RESPONSIBILITIES

- TECH BAND TEAM LEADER
- STUDENT COORDINATOR
- VOLUNTEERED OF ISRO SPACE EXPO

ACHIEVEMENTS

Sololearn - 3+ Course Completion

<https://www.sololearn.com/en/profile/28005102>

- CODE BUG COMPETITION - WON 1 PRIZE
- NPTEL C LANGUAGE - WON SILVER MEDAL
